Mr Mark Ruff

mark@avatarfactory.com.au

Dear Mark,

It gives me great pleasure to inform you that you are the recipient of the 2023 BOB MILLER – ACS TECHNICAL & INNOVATION ACHIEVEMENT AWARD.

The selection panel were unanimous in their decision based on your innovative approach to designing and manufacturing specialised equipment uniquely packaged in a portable setup with a streamlined and innovative approach to some of the traditional limitations of photographic three dimensional scanning. “The wholistic workflow from scanning to data management within the purpose built truck is an impressive feat of engineering and it is even more impressive that Mark has built this as a small family business not a large electronics company or VFX house.”

I would like to invite you and partner to attend the ACS National Awards for Cinematography in Sydney on Saturday, 6th May at the Crystal Ballroom, Luna Park to receive your award from Miller Camera Support, CEO, Mr Mark Clementson.

The Awards itself is named in honour of the inventor of the world’s first fluid action tripod head, Bob Miller.

The award comprises \$1,000.00 in cash and a \$2000.00 Miller voucher enabling you to purchase any Miller Camera Support product at 40% discount off list price directly from Miller, with a valued list price of \$3,333.00

In addition, Miller has donated an LP54 in a wooden case and a special Bob Miller Award plaque, which will reside in the ACS headquarters in North Sydney. The name of the award recipient will be engraved on the LP 54 Classic plaque, every year, in perpetuity. You will receive a framed, signed certificate to commemorate the win.

I look forward to hearing from you to confirm your attendance.

Congratulations and warmest regards.

Erika Addis
